

Prajjwal Pratap Singh

Phone: 7317544732 | Email: psinghpratap8588@gmail.com | GitHub | LinkedIn | Codolio

Skills

- **Programming:** C/C++, C#, HTML, CSS, Java, Python, Angular, JavaScript, MongoDB, MySQL
- **Libraries/Frameworks:** Node.js, Spring Boot, Express.js, React.js, ASP.NET Core, JWT
- **Testing:** Test Automation, Pytest, System Integration Testing
- **Developer Tools:** VS code, Git/GitHub, Azure, Postman, Docker, Maven, Cloud Technologies

Work Experience

- **Newgen Software Technologies** Feb 2025 – Feb 2026
Full Stack Developer Intern (Full Stack Development)
 - Developed a scalable full-stack web application with RESTful APIs (REST API design) using **Spring Boot**, **React** and **MongoDB**, integrating **AWS S3** for cloud storage.
 - Implemented backend development logic for text extraction from 1,000+ PDFs using **Apache PDFBox** and integrated AI-based summarization, reducing manual review time by 80%.
 - Built a responsive **React UI** with **Tailwind CSS** and containerized the application using **Docker** and debugged runtime issues to ensure stable deployments, improving user engagement by 60% and enabling easy deployment.
 - Developed test automation scripts and performed system integration testing for REST APIs.
 - Participated in code reviews and Agile sprints, contributing to improving code quality and team productivity.

Project Work

- **Text to Image Generator AI SaaS App** Dec 2025 – Jan 2026
AI-based image generator with text prompts, credit access control, and secure payments.
 - AI-powered image generation platform using the **MERN** stack and **ClipDrop API** for real-time text-to-image conversion.
 - Features include authentication and authorization using token-based mechanisms, usage tracking, and **Razorpay** integration for processing over 2,000 image generation transactions.
 - Wrote automated test suites (unit and integration) covering 40+ API endpoints.
- **FullStack Food Delivery Website** Sep 2024 – Dec 2024
Real-time features, JWT authentication, and MongoDB (Mongoose) with Node.js for a secure backend.
 - Created a full-stack web application using **JavaScript**, **React.js**, **Node.js**, **Express.js**, and **MongoDB**, supporting 1,500+ users with responsive and scalable design.
 - Implemented secure authentication and basic understanding of **TLS/SSL** and secure data handling
 - Proposed a secure JWT-based authentication and designed a schema-driven backend with MongoDB (Mongoose), reducing unauthorized access incidents by 70%.
 - Designed efficient database schemas and optimized SQL queries using joins and indexing for improved performance

Education

- **Rajiv Gandhi Institute of Petroleum Technology** (An Institute of National Importance) 2022 – 2026
B.Tech in Computer Science and Design Engineering

Relevant Coursework

- **The Web Developer Bootcamp 2024** (A Popular MERN Course on UDEMY)
- Data Structures and Algorithms, Object-Oriented Programming, DBMS, Computer Networks (**TCP/IP**, **HTTP**, **DNS**), Machine Learning, Operating System, SDLC

Achievements

- **Top 2% Rank in IIT-JEE Advanced Exam** 2022

Positions of Responsibility

- **Event Organiser :** Urjotsav 2023 - Annual Tech Fest of RGIPT 2023
 - **Core Team Member :** Arpan - Social Council of RGIPT 2023 – 2025
-
